Sulzer Mixpac USA Inc. in Haslett, Michigan is the exclusive U.S. distributor of COX hand-held sealant and adhesive applicators. All products in the COX line are manufactured in-house at three locations: Newbury, England; West London, England; and Haslett, Michigan.

Sulzer Mixpac USA's distribution center in Michigan offers a wide range of in-stock products with on time delivery commitments, customer and technical service, and a parts and repair service center. Our sales team works to create and maintain a partnership with our customers, listening to their views and ideas to ensure that future development remains focused on providing a range of products optimally suited to their changing needs.

By combining innovative design with excellent manufacturing standards, rigid quality management, a competitive pricing policy and an in-depth understanding of the sealant and adhesive worldwide market, we have developed a range of manual, pneumatic and battery operated applicators to satisfy application needs from the do-it-yourself to the industrial to the most sophisticated specialist markets.

Quality of output is carefully monitored by a quality assurance system, stringently applied to incoming materials and components, in-house manufacturing and the finished product. It is the key to the company's reputation for producing consistently high quality products at attractive prices, and is the reason that the COX brand is considered number one in the world for sealant applicators.

Warranty

Sulzer Mixpac USA Inc. offers a one-year limited warranty from the date of purchase against defects in materials and workmanship on all COX branded products. Sulzer will repair or replace the product at our option, at no cost to the purchaser for labor, parts or return transportation, if it is delivered to us or your local COX dealer.

Parts/Service

In the event COX products fail to meet the warranty criteria, Sulzer Mixpac USA Inc. will submit a quotation to the purchaser on costs for parts and labor. A full parts and service department is located on-site to provide continued technical assistance and support.

Schematics

Due to our commitment of producing the highest quality products on the market, we are continuously making up-grades and improvements on our tools. In order to supply the most up-to-date schematics, they are available on-line at our website, www.cox-applicators.com.
